

Basic Bed Bug Prep Sheet for Heat Strike Pest Control Inc. **MAIN ISSUES – Clothing, Cardboard and Clutter**

Any questions, please call HSPC @ 780 -722 -9261 for assistance

- 1 – Clothing** in dresser drawers or stacks of clothes on shelves **NEED** to be washed in **HOT** water and dried on a full cycle. Then put into a plastic bag, tie them tightly, and tape them shut. All bags must be **SEALED**. If the clothing has been washed recently you will need to rewash them again if they were put into dresser drawers, as they may be infected now.
- 2 – Clothing** that is hanging can be left as is. If you are able to hang the clothing from dressers, that is completely fine, and will save you from washing and drying them again. Do **NOT** hang any items in the bathroom.
- 3 – DO NOT MOVE ANY FURNITURE:** Techs will be moving items around all day to ensure a proper treatment. Some items may be left in place.
- 4 - CLUTTER:** Needs to be purged or spread out, but do **NOT** clutter floor area or hallways.
- 5 – CARDBOARD:** Needs to be eliminated as much as possible. This is a big hotel for bed bugs. Transfer items to plastic totes.
- 6 – HEAT SENSITIVE ITEMS:** Pets of any kind should be removed during the treatment. Items made out of wax (like candles and crayons) should be placed in the bathroom. All cleaning supplies, makeup, deodorants, and perfumes should be placed in the tub or bathroom sink. Aerosol cans should be removed for the day, or be placed in the bathroom. Vinyl blinds need to be taken down- lay them down in the suite to get treated. All medicine should be placed in the fridge for safe keeping. All electronics will be completely fine for the day. Please just have them all unplugged. For more detail on these items, please read or download our full prep sheet at heatstrikepest.com.
- 7 - Suitcases MUST** be empty. If clothes are in them, they will need to be washed, dried, and put into a sealed bag, or hung up. Leave empty suitcases in the unit for the heat treatment.
- 8 – ANYTHING REMOVED FROM THE UNIT WILL NEED TO BE INSPECTED OR CLEANED BEFORE IT IS BROUGHT BACK INSIDE AS YOU MAY BE TRANSFEREING BED BUGS.**
- 9 –** You will need to inform Heat Strike Pest Control if you have any unique pets, aquariums, etc, so that we can safely protect everything for you.

We all need to work together to solve this pest issue. You can also visit us at heatstrikepest.com for more info. A cancellation fee may be applied if prep is not completely finished.
